

RESOURCE REQUEST LINKS FOR EMS, HOSPITALS, AND SKILLED NURSING FACILITIES

As of 01 April 2020 – 0800

- Effective 0800 April 1, 2020 - EMS Agencies, Hospitals, Long Term Care Facilities, and other healthcare facilities can place **urgent or emergent** resource requests into the below links. The links are specific to each agency type, please use the appropriate link for your agency below. These requests are for personal protective equipment. You will be asked what you have on hand, your burn rate of supplies, and when you have attempted to order through your normal vendors, etc. These requests may be filled, if the supplies are available. You may not get the exact brand, make or model you request or the exact quantity. Requests for agencies that have less than a 96-hour supply and/or are treating patients with COVID-19 will take priority.
- Any resource requests entered in the past that were in progress/need to be vetted status should continue under the previous county to WEBEOC process.

However, the links are provided below for informational purposes.
